4YP Pharmacy (EHC)

EMERGENCY CONTRACEPTION (EHC)

Emergency hormonal contraception (the 'morning after pill') can usually prevent pregnancy if taken within 72 hours (3 days) of having sex. It is more effective if started within the first 24 hours.

For information about local pharmacists visit www.shharingey.co.uk

EHC is also available from contraception & sexual health clinics, GPs and NHS walk in centres.

Participating Pharmacists in Haringey

Participating pharmacies will provide you with free emergency hormonal contraception pills. This service is free and confidential for young people under 18, it is also available to buy over the counter.

Most of these pharmacies also provide chlamydia screening for under 25 indicated in red.
